FIBERGLASS DOOR

Features & Benefits

● **BRUSH STROKE SMOOTH**-More Elegant, More Unique

VERSATILE FINISHES

BRUSH STROKE DESIGN MAKES THE SMOOTH SURFACE MORE ELEGANT AND UNIQUE. WOOD TEXTURE SURFACE LOOKS LIKE REAL WOOD.

LOW MAINTENANCE

Linclastn fiberglass doors may well perform in extreme weather, ensuring that upkeep is easy and minimal while performance is absolutely dependable.

WEATHER RESISTANT

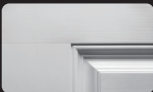

Fiberglass front doors are incredibly strong and durable. Resisting warping, dents and rot, these doors will not absorb moisture to provide long-lasting beauty and performance.

Door Assembly

- 1 FIBERGLASS REINFORCED DOOR SKINS**
High Impact Compression Molded Skins with Wood Grain or Smooth Surfaces.
- 2 FULL LENGTH COMPOSITE STILES**
Our full-length composite stiles protect the door from external moisture to prevent warping or rotting.
- 3 COMPOSITE TOP & BOTTOM RAILS**
High Strength Engineered Composite Top and Bottom Rails Prevent Moisture from Seeping into the Door.
- 4 POLYURETHANE FOAM CORE**
Environmentally Friendly CFC Free Polyurethane Injection Foam Core for Sound Thermal Performance.

Ball-bearing

Benefits

Lifetime warranty
Full composite frame system, will never rot
High-performance fiberglass flush glaze door for easy maintenance

Compression Type Weatherstrip

- Kerf-applied to fit securely into the top and side jambs
- Flexible, foam-filled material holds its shape over time
- Traditional .650" reach ensures a weather tight seal

Composite Sill

- continuous all-composite substrate.
- Flush-fitting, premium screws form an uninterrupted sealing surface, resist corrosion

Foam Filled Corner Seal Pad

- Wedge shaped adhesive-backed
- Will not wick water. Apply to corner of jamb
- Mate with inswing sills to complement weather-sealing performance

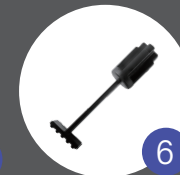

Bottom Sweep

- Kerf Applied
- Multiple fins help block moisture infiltration and deflect moisture away from the cap
- Available in Dark Brown Color

Door Closure Plug

The Closure requires a 1" diameter or a 3/4"x1" rectangular hole through the jamb. The two parts are supplied in a connected set of installation and ensure an equal number of matching parts supplied in each box.

T-Style Sidelite Plug

A one-step process. Helps secure the door slab in the frame thus preventing damage during transportation.

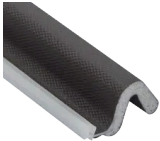

Door Lift Handle

- Lift handles are used to make transporting of doors easier. These can be used for interior, exterior, sidelight and double doors.
- Attach lift handle about 30" from the bottom of the door unit.
